BALANCE for BETTER LABYRINTH GAME

PLAYERS:

4 to 6 + 1 adult narrator

SYNOPSIS:

The Evil Horde has set out to destroy the kingdoms of Etheria. This battle is far too much for you to conquer alone, so you must call upon the unique forces of the Rebellion as you guide your runestone through the labyrinth. Which friends and princesses will you dispatch to your location? Who offers the most balance to your team of rebel warriors? With the help of your friends, find a safe path to Bright Moon before it is taken over by the Horde!

PLAYING THE GAME:

With the help 4-6 players, balance the maze to guide your runestone to each of the kingdoms. In order to rescue a kingdom, you must call upon your friends and princesses for their skills and strengths for each challenge.

ACTION 1: Discuss and determine which friend's or princess' characteristics would be a powerful solution for each scenario and why.

ACTION 2: When you've selected the character, dispatch them to that kingdom by sticking the character marker into that spot on the board.

Important! You may dispatch each character **only once** along your journey.

ACTION 3: Now guide the runestone to that kingdom, and repeat these actions until you reach safety at Castle Bright Moon.

Tread carefully and stay alert! If you run into a villain, return the marble to your last completed kingdom. A safe path will require constant communication, solutions, and teamwork from all players!

NOTES TO NARRATOR:

Important! It is recommended that players complete the "**Finding My Inner Balanced Hero**" book before playing the labyrinth game. This will familiarize players with the characters and their strengths and struggles.

Suggested answers are not the only answers. Players are encouraged to come up with their own parallels to each dilemma. There are no wrong answers. Use the discussion time as a tool to compare character strengths or struggles and how they might be a good fit for the task.
